

CONFIDENTIAL

16 November 1959

MEMORANDUM FOR: Chief, Technical Services Staff

SUBJECT : Request for Continuation of Task Z under Contract
RD-26 with [REDACTED]

25X1

1. Description of the Project

Preparation of working drawings and a resume of the major problems anticipated for the fabrication of the new air-fed incinerator.

2. Purpose of the Project

Completion of the second prototype model of the new air-fed incinerator is rapidly approaching. At the completion of this phase of the program, a few additional incinerators of this type are to be fabricated by a commercial fabricator. These units would then be distributed to the field jointly by TSS and Security.

In order to facilitate the fabrication of these incinerators, and in the interest of economy, this proposed program addition would assure the fabricator of having a good set of working drawings and would also alert him of the difficulties to be anticipated during fabrication. In addition these drawings and resume would aid the prospective fabricators in submitting closer estimates.

3. Recommended Contractor

The recommended contractor for this project is [REDACTED] 25X1
[REDACTED], who is currently conducting the development of this incinerator at their laboratories. 25X1

4. Support Requirements

There is no support required from other Government agencies.

5. Total Cost

The cost of this proposed additional effort is estimated to be \$5,088.00 for a three month period. Charges are to be made against Allotment Number 0525-1009-4901.
